

Colonial Savings

November 13, 2017

It was another tremendous year working alongside the [Junior Achievement of the Chisholm Trail, Inc. \(Fort Worth\)](#). We had the privilege of working with two amazing group of students from [Stripling Middle School](#) and [Green B. Trimble Technical High School](#), respectively. In addition to teaching these students financial literacy and discussing real world applications, Trimble Tech students visited Colonial for a tour and one-on-one discussions with key employees.

To show our support, Colonial was happy to give a donation to each of these teachers to help provide school supplies and other learning materials. A special thank you to all of our employees who participated. It would not be possible without your commitment.
