Fort Worth, TX 76102

Dear Heather,

Thank you for supporting Junior Achievement and the almost 20,000 students we serve in Tarrant County.

We appreciate your contribution to Junior Achievement of the Chisholm Trail in the amount of \$4,000 (Check# 1105), which helps young people in our community develop the **competence and character** needed to succeed in today's global economy.

Teaching young people how to be smart with money, be best prepared for pursuits after high school and how to start a business are what we do best. And though the school year took an unexpected turn, we continued supporting educators and school district partners with our new JA Google Classroom, serving grades K-12.

I'm proud of how quickly our team pivoted during these unprecedented times and thankful for this feedback:

"Happy to see that JA is continuing in its mission and making the transition to online learning by developing resources for its partners in the community - particularly for us as volunteers."

-Legal Assistant | First Command Financial Services, Inc.

JA Company Program, our intensive entrepreneurial experience for high school students, had a record-setting year. Students formed 30 companies throughout the school year, culminating in our annual Company of the Year Competition with 250 students participating. And, we're the **2nd largest JA Company Program in Texas!**

Thank you again for helping us ensure that tomorrow holds hope and promise for the young people in our community.

With sincere appreciation of your continued support,

A handwritten signature in cursive script that reads "Cindy Hames".

Cindy Hames
