

March 21, 2019

Robert L. Turner
Vice President-CRA Officer/Fair Lending Manager
Colonial Savings
2600 W. Freeway
Fort Worth, TX 76102

Dear Mr. Turner,

Once again, the Colonial Savings Foundation has provided an incredibly generous matching grant of \$23,747.67 to United Way after a very successful employee campaign. On behalf of the hundreds of thousands of residents served by United Way and our partners, in our community, we offer our most sincere gratitude for Colonial's continued commitment toward investing in the community.

This gift will directly benefit our work on several initiatives. One example is a collaborative which improves integration and coordination of services for persons with dementia and their caregivers, to enhance healthy aging and independent living. Another example is an initiative with a focus on preventing childhood homelessness by providing access to quality, affordable childcare for single mothers of young children.

In recent weeks we have completed our work on the 2018-2019 Community Assessment. The information learned from the assessment will become a driving force of our future work and community investment. I have included a copy of the assessment with this letter for your review. We hope that it provides you with insight into several chronic issues that are happening within our community. We intend to use it as our community investment roadmap and invite you to continue to work alongside us as we seek to identify the root causes of these systemic issues.

We truly appreciate the longstanding relationship and support from our friends at Colonial and look forward to strengthening our partnership for many years to come.

Sincerely,

T.D. Smyers
President and CEO
United Way of Tarrant County

*Thank you for your
consistent partnership
and leadership!*
